Dear Mr. Brown:

Enclosed please find a copy of the letter which I received from Minister Jake Epp in response to the letter which I wrote regarding environmental hypersensitivity.

I sincerely hope that it will be of some value to yourself and others in your situation. He certainly clearly states his sympathy and in no way questions the legitimacy of the condition and the suffering it engenders.

Beyond that, he has not committed his department to address the condition specifically in terms of education, either within government departments or the public. I suggest that one way to attack the problem of public education might be to apply for a grant through the National Health and Welfare Grant Program.

Sincerely,

A handwritten signature in cursive script, appearing to read "Margaret Mitchell".
